

# WHAT RESULTS SHOULD I EXPECT?

We are very proud of the examination results all of our students achieve. If you work hard, become good at managing your own efforts and take responsibility for your learning, you will be very successful here.

In 2017, our students once again achieved results that were among the very best in New Zealand.

Our students leave school with some of the best results in the country. Nearly all our students achieve

University Entrance, and they achieve much higher results than boys in similar schools.

Our scholarship results are in the top four in the country every year.

Our students achieve more Scholarships than boys in all the other schools on the North Shore, state and private, combined.
